

OLYMPIAN GREEN

Passion for excellence
Superior Legacy

The group

Our head-office is located in Athens and the factory in well known Olympia region (The birth place of Olympic Games 776 B.C.), 250km South of Athens in Peloponnese.. The integrated plant capacity is planned to exceed 5.000 tons of Extra Virgin Olive Oil products.

The olives are pressed within 24 hours from harvesting, thus conserving and maintaining their beneficial substances intact. The olives, for all types of olive oil, are cold pressed in a technologically state-of-the-art 2-phase mill, without exceeding 27°C. The outcome is one of a kind olive oil, full of aromas and taste. Once it has been processed, the olive oil is stored in double-coated stainless steel tanks, so as to allow natural sedimentation under ideal conditions, before reaching your table.

Our legacy in extra virgin olive oil production begins in 1846. Since then, we have continued growing, taking the Greek family tradition to the next level.

Vision

Our vision is to see the world coming closer to the Mediterranean lifestyle, making a better life for themselves by choosing to add the original, natural, rich in flavor and healthy nutrients extra virgin olive oil of Olympian Green in their everyday nutrition.

Values

Passion for what we do.

Be a trusted partner and a trusted provider for our clients around the globe.

Focus on producing a superior extra virgin olive oil, always respecting our customer's needs.

Achieve excellence across all our products.
